

For more than 30 years Sierra® Wood Stoves have provided engineering excellence, exceptional value, and versatility. With three product categories to choose from Sierra provides a complete wood heat product line. Weather your preference is high efficiency catalytic, non-catalytic, or thermostatically controlled, Sierra has a quality product designed and engineered to fit your need.

Sierra offers maximum installation flexibility with many installations that other stove companies do not provide. Our 8000TEC Hearthstove® with low overall height, top or rear flue outlet, and side loading door allows for installation in front of fireplaces or raised hearths. Our 4700 Fireplace Insert will fit the largest masonry. Whether you have a house, farm, or shop you may consider our Shenandoah Thermostatic Wood or Coal Heaters. Sierra has it all covered!

Sierra Stoves meets and exceeds EPA Emission requirements and are safety tested to national standards. Style, Performance, and Value are attributes that define Sierra Wood Stoves. Maintenance is a snap with most units providing ash pans for easy ash removal and minimum tools required to remove most interior parts for cleaning or replacement. Thoughtful design throughout has provided a stove that is easy to install, operate, and maintain. Sierra Stoves is a name to remember!

Sierra 8000

The versatile 8000TEC can be installed as either a free-standing stove or as a hearthstove in front of a masonry fireplace. This long burning catalytic stove features both front and side loading doors, interchangeable top or rear flue, ash pan, grate, glass air wash system, and will accept up to 28" wood. Options include gold or nickel plated door, high output blower, and fireplace cover kit.

Sierra® Woodstove Features

- 🔥 Exceptional value and performance
- 🔥 Large Firebox for long burn time
- 🔥 Simple air control
- 🔥 Ash Removal System
- 🔥 Heavy Duty Construction
- 🔥 Wide variety of installations
- 🔥 Limited Lifetime Warranty

Sierra 4700

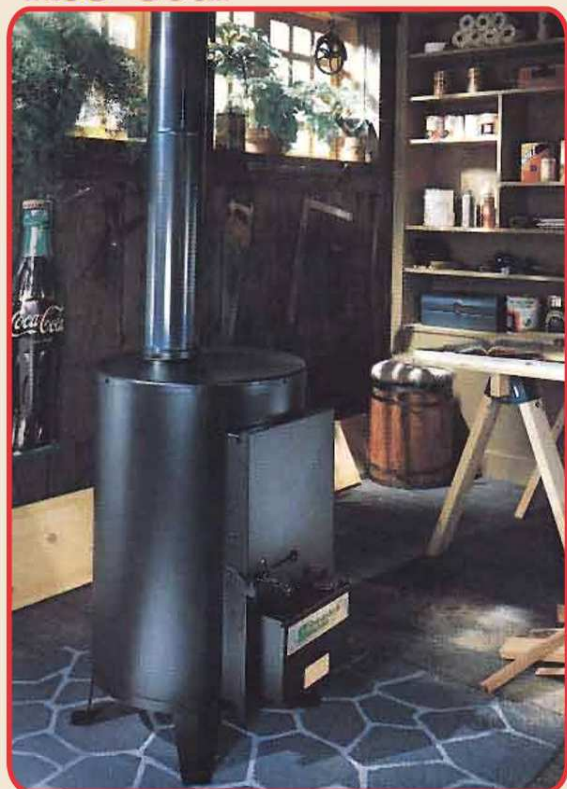

Sierra Ambassador 4700TEC bay window fireplace insert offers more than just great looks. It is truly a whole house heater with standard features including wide angle view of the fire, glass air wash system, ash pan, grate, and high output thermostatically controlled blower system. This long burning catalytic insert will hold 24" logs and heat up to 3000 sq/ft.

Options

 - 24K Gold Finish
 - Satin Nickel Finish
- 🔥 Variable Speed Blower
- 🔥 Outside Air Kit
(Mobile Home Approved)

Sierra-Shenandoah Heaters

R65 Coal

Unique wood heating concept for home, farm, or shop. Heater features heavy gauge metal construction and Bi-metal thermostat which automatically controls heat output. Large loading door enables easy loading and refractory lining enhances even burning and heat retention. Ash removal is accomplished by shaker grate for sifting and large ash pan. The R-65 heater operates on 50 lbs. of coal.

Shenandoah Features

- 🔥 Heavy Gauge Metal Construction
- 🔥 Bi-metal thermostat
- 🔥 Refractory lining
- 🔥 Shaker Grate & Ash Pan
